

Who Knew

Meghan Patrick

First and foremost we're friends
From beginning to end
And that will never change
I never had to defend
Who I am and you don't have to explain

I always believed
That it had to be so hard
But you made it so easy
Right from the start

Now it's easy to love, it's easy to breathe
Yeah it's easy to be the best version of me
Nothing I want, nothing to prove
So baby, please, keep doing what you do
And who, who knew that love could be so easy?

Remember the words that we say
You're my home and forever I'll stay
'Cause I know whatever it takes
You'll make me smile and take time to play

I always believed
That it had to be so hard
You made it so easy
Right from the start

Now it's easy to love, it's easy to breathe
Yeah it's easy to be the best version of me
Nothing I want, nothing to prove
So baby, please, keep doing what you do
And who, who knew that love could be so easy?

Oh when it all just happens like that
Dream come true so naturally
For all of my questions there's one answer
You were made for me

Now it's easy to love, it's easy to breathe
Yeah it's easy to be the best version of me
Nothing I want, nothing to prove
So baby, please, keep doing what you do
And who, who knew that love could be so easy?
Mmh, so easy
