

Wild As Me

Meghan Patrick

Every reason why every other guy ran away
Is every reason why you love me, and why you stay

Our rough edges fit together
You're the missing piece I didn't know I need
We'll be dirt flying, running forever
Like two untamed mustangs

Baby, you're wild as me
My once in a lifetime made of the same kind of crazy
I want every sunset, and every sunrise
When you hold me tight, it sets me free
I thank God I found somebody
Wild as me

All the times that our two roads run separate ways
Make the times they take us home all the sweeter baby
We're both hard to love, but with us it's easy
I live in the fast lane, and...

Baby, you're wild as me
My once in a lifetime made of the same kind of crazy
I want every sunset, and every sunrise
When you hold me tight, it sets me free
I thank God I found somebody
Wild as me

Baby, you're wild, was made for me
'Cause baby you're wild, wild as me
Baby, you're wild as me
My once in a lifetime made of the same kind of crazy
I want every sunset, and every sunrise
When you hold me tight, it sets me free
I can't believe I found somebody wild as me
Baby, you're wild as me
