

# Blurry

Meghan Trainor

Hoped you were different, babe  
But you're all the same  
So beautiful, so insane  
Yeah, it's crossed my mind just a couple times  
I must resist your love, gotta put up a fight

But, when you dance for me, dance for me  
How could I resist the way you move?  
Shawty, you're breaking me, breaking me  
I don't understand the things you do

Baby, I know your type  
Your body can control my mind  
And damn, you look good tonight  
Heaven knows, I know you ain't right  
Cause baby, I know you're tight  
Your body can control my mind  
And damn, you look good tonight  
Can't help but worry, worry  
Cause my vision's blurry

My vision's blurry  
My, my vision's blurry  
My vision's blurry

So much energy you could take from me  
Then tear my heart in two way too easily  
Heard the words they said, might take a chance instead  
You got a hold on me, shame messing with my head

But when you dance for me, dance for me  
How could I resist the way you move?  
Shawty, you're breaking me, breaking me  
I don't understand the things you do

Baby, I know your type  
Your body can control my mind  
And damn, you look good tonight  
Heaven knows, I know you ain't right  
Cause baby, I know you're tight  
Your body can control my mind  
And damn, you look good tonight  
Can't help but worry, worry  
Cause my vision's blurry

My vision's blurry  
My, my vision's blurry  
My, my, my vision's blurry  
My vision's blurry
