

## Highlight

Meghan Trainor

Highlight, baby you're my highlight, baby you're my high, high  
Highlight, baby you're my highlight, baby you're my high, high

There you go, there you go, there you go making me laugh out loud  
There you are, there you are, you just stand out in the crowd  
Woah-oh, there you are hmm  
I see you smile, I see you smile, see you smiling back at me  
Like the sun, shining bright, you're everywhere I wanna be  
Woah-oh, I wanna be, yeah

'Cause you're the highlight of my world tonight  
I like the way you keep getting it right  
I don't know, don't know what to do  
But whatever it is don't stop 'cause you  
You're the highlight of my world tonight  
Keep playing the way, I won't put up a fight  
I wanna replay every little thing you do  
'Cause you're my highlight, my highlight

Once again, once again, you're making it hard for me to breathe  
Did you know? Did you know? That you're the oxygen I need  
Woah, you're all I need, yeah  
So let the outside world go dark

'Cause you're the highlight of my world tonight  
I like the way you keep getting it right  
I don't know, don't know what to do  
But whatever it is don't stop 'cause you  
You're the highlight of my world tonight  
Keep playing the way, I won't put up a fight  
I wanna replay every little thing you do  
'Cause you're my highlight, my highlight

All the cold winds may blow  
And all the thunder will roll, roll, roll  
Ooh, but I'mma stay by your side  
All through the night  
'Cause baby all I wanna do is keep on loving you  
Uh-huh, 'Cause baby you  
Well you're the highlight of my world tonight  
I like the way you keep getting it right  
I don't know, don't know what to do  
But whatever it is don't stop 'cause you  
You're the highlight of my world tonight  
Keep playing the way, I won't put up a fight  
I wanna replay every little thing you do  
You're my highlight

You're the highlight of my world tonight  
I like the way you keep getting it right  
I don't know, don't know what to do  
But whatever it is don't stop 'cause you  
You're the highlight of my world tonight  
Keep playing the way, I won't put up a fight  
I wanna replay every little thing you do  
'Cause you're my highlight, my highlight

Highlight, baby you're my highlight, baby you're my high, high  
Highlight, baby you're my highlight, baby you're my high, high  
Highlight, baby you're my highlight, baby you're my high, high
