

Make You Dance

Meghan Trainor

All night
I stay up all night on my phone watching dumb shit
'Til three o'clock in the morning

And lately I've been lazy
I've been drowning in my head
With these thoughts making me crazy
I'd rather dance instead
I can't be the only one
So if you get lonely, just

Dance
I dropped this shit to make you, make you dance
Don't act like you ain't making any plans
Imagine, baby, it's your only chance
Yeah, I dropped this shit to make you, make you
I dropped this shit to make you, make you
I dropped this shit to make you, make you

Dressed up
Got all dressed up for no one, down my Rosé
I've been drinking since one

'Cause lately I've been lazy
I've been drowning in my head
With these thoughts making me crazy
I'd rather dance instead
I can't be the only one
So if you get lonely, just

Dance
I dropped this shit to make you, make you dance
Don't act like you ain't making any plans
Imagine, baby, it's your only chance
Yeah, I dropped this shit to make you, make you
I dropped this shit to make you, make you
I dropped this shit to make you, make you

To make you dance
To make you dance, ah
I can't be the only one
So if you feel lonely, just

Dance
I dropped this shit to make you, make you dance
Don't act like you ain't making any plans
Imagine, baby, it's your only chance
Yeah, I dropped this shit to make you, make you
(Oh, to make you, make you)
To make you, make you
I dropped this shit to make you, make you
I dropped this shit to make you, make you
