

## See You Smile

Meghan Trainor

I waited till I met the day  
The day that you would go away  
Yeah I new you were something special  
I waited for nothing else  
Cause nothing mattered but myself  
Yeah I knew I just had to have you  
Ooh the way you'd say  
Ooh you're on your way  
Felt like nothing else could change my mind  
Ooh you're something new  
Who could it be but you  
You can make it feel so right tonight

Could it be the way you say  
Put a smile on your face  
Could it be the way you try  
To always change my mind  
Could it be the way you are  
Could it be that I'm so far  
You make me wanna go back in time  
To see you smile (to see you smile)

I waited till I met the day  
The day that you would come my way  
Now I feel like my life's complete  
Oh yeah it's a fact  
My happiness is back  
Just because you are here with me  
Ooh the way you'd say  
Ooh you make my day  
The butterflies would appear inside me  
Ooh you run my dreams  
I hope you dream just like me  
Cause then I know that this was meant to be

There's no other one out there quite like you  
I'd have to search the world but none could compare to you  
Cause you're the one I want and all I'll ever need  
I don't know what it is but could it be, could it be
