

## Started With A Hello

Meghan Trainor

See I wouldn't mind getting to know you  
I'm pretty sure all your friends have told you  
'Cause I've been going on and on about you  
And I don't even know your name  
Yeah I've noticed you've been hanging around and  
I wasn't looking but I'm glad I found ya  
'Cause I can't control what you do to me

It started with a hello (hmm-mmm-mmm)  
What you up to? how you been?  
Is your lover girl a no show? (hmm-mmm-mmm)  
She's a fool leaving you again  
'Cause we can do that kind of dancing that you can't do with your friends (hmm-mmm-mmm)  
I started this conversation so you'll tell me how's it gonna end (hmm-mmm-mmm)

Aye, I really wanna make you smile and stay out with me for a little while  
Don't need to rush we can take our time and pretend like it's just us two  
'Cause I can feel like you the bass in the room  
We go together like that clap and boom  
You'll be the rhythm baby I'll be the blues  
And that's, that's what I like, aye

It started with a hello (hello, hello)  
What you up to? how you been?  
Is your lover girl a no show?  
She's a fool leaving you again  
'Cause we can do that kind of dancing that you can't do with your friends (can't do with friends baby)  
I started this conversation so you'll tell me how's it gonna end

Ooh, you got me loving what you do  
They gon' wonder how, how I got you!  
Well it started with a hello (hello, hello)  
What you up to? how you been?  
Is your lover girl a no show?  
She's a fool leaving you again  
'Cause we can do that kind of dancing that you can't do with your friends  
I started this conversation so you'll tell me how's it gonna end (hey-aye, tell me how's it gonna end)

'Cause it started with a hello  
What you up to? how you been? (baby how you been, been, been? aye)  
Is your lover girl a no show?  
She's a fool leaving you again  
'Cause we can do that kind of dancing that you can't do with your friends (aye, woah, oh)  
I started this conversation so you'll tell me how's it gonna end (how

's it gonna end baby?)

Started with a hello

No, it started with a, it started with a, it started with a hello (started with a hello)

Oh-oh-oh, it started with a hello, it started with a hello, it started with a hello
