

To The Moon

Meghan Trainor

The girl of your dreams (Girl of your dreams)
Baby, that's me (Baby, that's me)
I'm out of this world (Ooh ooh)
No gravity (Ooh ooh)

Yeah, so when you want some, boy, come get it
I'ma take you past your limits
I got a spaceship, come get in it
For the ride of your life

My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love

The girl of your dreams (Girl of your dreams)
From a galaxy (Galaxy)
Far, far away (Ooh ooh)
Hard to believe (Ooh ooh)

So, when you want some, boy, come get it (Come get it)
I'ma take you past your limits (Your limits)
I got a spaceship, come get in it
For the ride of your life

My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you-

Darlin', you'll be gone so far (You'll be gone so far)
Way beyond the stars (Way beyond the stars)
A feelin' that you never knew

My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love
My love's gonna take you to the moon
My love, my love
My love, my love

My love's gonna take you to the moon
