

While You're Young

Meghan Trainor

I know you've been hurting for weeks
You stayed up late and cried yourself to sleep
And it's okay if you don't like what you see
You've only just begun and you're good enough
And I know it doesn't help with the pain
But have you ever tried to dance in the rain?
You're not the only one who's feeling this way
So go get crazy, love

While you're young, go on and make mistakes
Give your heart a break
And remember when life goes on (It goes on!)
Try to take every moment you got before it's gone

Don't bury your head in the sand
I know your friends can't even understand
Wish I could go back and hold your hand
And we'd go crazy, love

While you're young, go on and make mistakes
Give your heart a break
And remember when life goes on (It goes on!)
Try to take every moment you got before it's gone

Don't worry, girl
Don't worry your life away
(Before it's gone)
Don't worry, girl
Don't worry your life away
(Before it's gone)

And I know it doesn't help with the pain
But have you ever tried to dance in the rain?
You're not the only one who's feeling this way
So go get crazy, love

While you're young, go on and make mistakes
Give your heart a break
And remember when life goes on (It goes on!)
Try to take every moment you got before it's gone

Don't worry, girl
Don't worry your life away (Nah no)
(Before it's gone)
Don't worry, girl
Don't worry your life away (Mm)
Before it's gone
