

For the Road

Meiko

Daybreak, I'm already miles away
And there's nothing left to say
Oh...
Too many, too many debts to pay
And not enough faith to play
Oh...
You see all I got is all I need
To get me where I'm going to
So take you one last look at me
And I'll tell you all that I gotta do
All I got is all I need to get me where I gotta be
So this one's for the love I leave
Yeah this one's for the road
I've given up
I've given up everything
To get away nice and clean
Oh
And it's Tuesday, but I don't know what time it is
And sometimes it's better like this
Oh...
You see all I got is all I need
To get me where I'm going to
So take you one last look at me
And I'll tell you all that I gotta do
All I got is all I need to get me where I gotta be
So this one's for the life I lead
Yeah this one's for the road

Say goodbye to all I know
Find myself when I get home
Say goodbye to all I know
Find myself when I get home

All I got is all I need
To get me where I'm going to
So take you one last look at me
And I'll tell you all that I gotta do
All I got is all I need to get me where I gotta be
So this one's for my destiny
Yeah this one's for the road...
