

I Do

Meiko

You and me
Go together like the birds and bees
Sing in pitch perfect harmony
I can't wait to take your name oh baby
All we need
Is a little hope and then we'll see
The world around us keeps on smiling
I can't wait another day oh babe
I do
I do
I do love you
Two hearts that beat
Like a marching band on Bourbon street
Dancing to a little ditty
From the living room of our first house
My knees get weak
Overtime I see you look at me
I will never lose this feeling
Like the 1st day that we met oh babe I do
I do
I do love you
Oh here comes the sun
And everyone
To see what we've done
To become one
I do
I do
Love you
