

Life Hack

Meiko

Don't be late
Is what they said to me
Don't tempt your fate
It'll come to you
Eventually

And I thought that for a moment
I was part of something more
Opened up my window and I closed the front door
And I snuck out with no one knowing
I was never going back
This is my life hack

Stand up straight
Is what they said to me
Don't stay up late
You can dream when you sleep

And I thought that for a moment
I was part of something more
Opened up my window and I closed the front door
And I snuck out with no one knowing
I was never going back
This is my life hack

Hold on tight
This will be the ride of your life
And if you wanna fight
You can always go outside

And I thought that for a moment
I was part of something more
Opened up my window and I closed the front door
And I snuck out with no one knowing
I was never going back
This is my life hack
