Lose It

Meiko

I can barely breathe
My life is full of everybody wanting everything from me
And I can barely speak up for me
Got too many fears
My mind is barely functioning

Get me the hell out of here
I've hit the ceiling and I don't know if I'm coming down
I've got a feeling that if I stick around any longer
I'm gonna lose it
Yeah if I stick around any longer, I'm gonna lose it

I can barely sleep
The dog outside is howling so loud
I know how he's feeling
But I can't do anything
Because after all I'm just a human being
Take me away
I need a little change

Get me the hell out of here
I've hit the ceiling and I don't know if I'm coming down
I've got a feeling that if I stick around any longer
I'm gonna lose it
Yeah if I stick around any longer, I'm gonna lose it
I'm gonna lose it, I'm gonna lose it, I'm gonna lose it

I need a little space around me
I need a little space
I need a little space around me
I need a little space

Get me the hell out of here
I've hit the ceiling and I don't know if I'm coming down
I've got a feeling that if I stick around any longer
I'm gonna lose it
Yeah if I stick around any longer, I'm gonna lose it

Get me the hell out of here
I've hit the ceiling and I don't know if I'm coming down
I've got a feeling that if I stick around any longer
I'm gonna lose it
Yeah if I stick around any longer, I'm gonna lose it
I'm gonna lose it
