

My Space

Meiko

Baby I've been thinkin' bout you lately
And where the hell you've been
All my money's spent and I'm left high and dry
Why don't we go to the island of Tobago
Cause I have never been but I've been Googlin' and it looks rea
l nice

And I close my eyes
Take a deep breath twice
And I tell myself it's okay
Cause love takes time just look for the signs
To keep you on your way

It's crazy how it all can look so hazy
Things get in my space and I can't find the place for my namast
e

And I close my eyes
Take a deep breath twice
And I tell myself it's okay
Cause love takes time just look for the signs
To keep you on your way

Ooh every time I turn around I hear your sound
Every time I turn around I'm upside down
Every time I turn around I hear you loud and clearly
Are you near me
Was this all a dream?

And I close my eyes
Take a deep breath twice
And I tell myself it's okay
