

Roll Out

Meiko

I tried
You lied
I died inside
You said
To let
You live your life

The way that you move me
Feels like a movie
When will the story end
Got lost in the middle
Left for a breather
I don't wanna play pretend

I know when it's time to go
Me and the credits roll
Out
Roll out...

I fly away
To find my place
Up high
My mind's in outer space

Cause it seems a bit too hard to deal
With what I know's a bit too real

The way that you move me
Feels like a movie
When will the story end
Got lost in the middle
Left for a breather
I don't wanna play pretend

I know when it's time to go
Me and the credits roll
Out
Roll out...

So
I'm on my own for a while
You stay a child
I need to grow for a while
You stay a child

The way that you move me
Feels like a movie
When will the story end
Got lost in the middle
Left for a breather
I don't wanna play pretend

I know when it's time to go
Me and the credits roll
Out
Roll out...

I know when it's time to go
Me and the credits roll
Out
Roll out...

Out out out...
Out out out...
