

# I'm The One Who Really Loves You

Mel & Kim

I'm (do-do) the one (do-do) who really loves you  
I'm (do-do) the one (do-do) who really loves you, yeah

You know that I would wait fore-ever  
And I would never tie you down  
At night, a date you feel like calling, I'd come around

Down in the street, look in the houses  
People everywhere are having fun  
When it comes to you I'm only waiting  
To say that you're the o-one

I'm the one who said she really loved you  
And I would never fool around  
I'm the one who said she really loved you  
And I'd never let you down, oh...  
I'm the one who really loves you

I'm not the beast and I'm not hurting  
I ain't the kind to lose control  
Anytime or place you feel the wanting, I'll come home

I'm the one who said she really loved you  
And I would never fool around  
I'm the one who said she really loved you  
And I'd never let you down, oh...

I'm the one who really loves you, yes I am, you  
I'm (do-do) the one (do-do) who really loves you  
I'm (do-do) the one (do-do) who really loves you  
I'm (do-do) the one (do-do) who really loves you, yeah

Down in the street, look in the houses  
People everywhere are having fun  
When it comes to you I'm only waiting  
To say that you're the o-one

I'd never let you down, oh...  
I'm the one who really loves you, yes I am, you  
I'm the one who said she really loved you  
And I would never fool around  
I'm the one who said she really loved you  
And I'd never let you down, oh...

I'm the one who really loves you  
I'm the one who said she really loved you  
And I would never fool around  
I'm the one who said she really loved you  
And I'd never let you down, oh...  
...
