System...

In the corner, I'm just thinking, what's a girl supposed to do  
I love you baby, from a distance, I've been watching you  
All of my friends use a cute line, seems to work everytime  
But I can't seem too get through to you, dreamin's all I do

Everybody's got a system, system  
Why's mine not workin' on you  
If I could make you listen, listen  
What've I got to do to prove my love for you

When I see you, wish I could hold you, but I just don't know what to do  
Everybody seems to know the ways of gettin' through  
I keep my eyes on what you're doin', even smile or stare at you  
Why don't you see me in the corner, I'm so in love with you...

Everybody's got a system, system  
Why's mine not workin' on you  
If I could make you listen, listen  
What've I got to do to prove my love for you  
Everybody's got a system, system  
Why's mine not workin' on you  
If I could make you listen, listen  
What've I got to do to prove my love for you

Everybody (why-why) everybody, my love  
Everybody (why-why) everybody, my love

In the corner I'm just thinking (I'm thinking)  
What's a girl supposed to do (supposed to do)  
I love ya baby, from a distance (distance)  
I've been watching you

Everybody's got a system, system  
Why's mine not workin' on you  
If I could make you listen, listen  
What've I got to do to prove my love for you  
Everybody's got a system, system  
Why's mine not workin' on you  
If I could make you listen, listen  
What've I got to do to prove my love for you  
Everybody's got a system, (system) system  
Why's mine not workin' on you  
If I could make you listen, listen
