

## Dreamin' With You

Mel McDaniel

You half asleep in the shadows  
City lights flashing by  
That old Okie moon's a'shining  
Again for dreamers tonight  
The noise and laughter have faded  
Like the songs the players are [?]  
But it just ain't my night for sleepin'  
Just another slow one to kill

Doin' one night stands with a lover  
That I can't even hold  
She leads me on like no other  
Got me singin' for silver and gold  
I wish I was there  
Dreamin' with you

They sure like my songs in Tulsa  
Made the old ones all seem brand new  
I really got into the sad ones  
And girl I sure sang the blues  
All the whole world's a song for the dreamer  
Like a dream he believes it's true  
But the world ain't no song for the singer  
When there's no dreamin' with you

Dreamin' with you  
Under that Okie moon  
Hush on the ground stars all around  
The magic of love and bloom
