

# I Wish I Was In Nashville

Mel McDaniel

Well, I went to see my honey dew  
She lived just down the way  
I got stuck and my truck broke up  
And I only got halfway

Sittin' here on a muddy road  
Stuck here all alone  
Rain won't stop, it's beatin' on the top  
And I should've stayed at home

I wish I was in Nashville  
A guitar on my back  
Maybe someday I will ride  
In the back of a big Cadillac

Must have been a half a day  
Before I got back home  
The road's all mud  
The creek's gonna flood  
And I'm still here alone

Sure feel good a getin' back  
To my old shack again  
I'm all soaked, my radio's broke  
And the rain keeps pourin' in

I wish I was in Nashville  
A guitar on my back  
Maybe someday I will ride  
In the back of a big Cadillac

Gonna get out my old Fender  
Learn me another chord  
Gonna pick and grin and play to win  
Like I've done it all before

They'll put me on the Opry  
The minute I hit town  
I'm gonna buy me some boots  
And rhinestone suits  
And throw my money around

I wish I was in Nashville  
A guitar on my back  
Maybe someday I will ride  
In the back of a big Cadillac

I wish I was in Nashville  
A guitar on my back  
Maybe someday I will ride  
In the back of a big Cadillac

I wish I was in Nashville  
A guitar on my back  
Maybe someday I will ride  
In the back of a big Cadillac
