

## Jump Into Love

Mel McDaniel

Neon lights are back in style, honky-tonk's are going wild  
It seems to me are stronger than ever these days  
I'm a hard working man, country music's biggest fan  
And I've got a good woman, we're kinda set in our ways

Lord, but we have fun, something new every night  
We grab each other, we hold on tight and  
Jump, jump into love

Yeah, we get plum crazy on this god given gift  
When we're down and we need a little lift  
We just jump, jump into love  
We just jump, jump into love  
Jump

Evel Knievel never raised a hair, like taking a climb with my baby upstairs  
The farther we go, the closer she moves to me  
Quitting time I head for the door, anticipating what's in store  
The shortcut home seems like eternity

We're gonna have fun, something new tonight  
Grab each other and hold on tight and  
Jump, jump into love

Yeah, we get plum crazy on this god given gift  
When we're down and we need a little lift  
We just jump, jump into love  
We just jump, jump into love  
Jump

Yeah, we get plum crazy on this god given gift  
When we're down and we need a little lift  
We just jump, jump into love  
We just jump, jump into love  
Jump

Oh, jump, jump into love  
Y'all jump, jump into love  
Oh, jump, jump into love
