

Love Is A Miracle

Mel McDaniel

Love is a miracle like the sun the rain the skies of blue
I'll tell you love is a miracle and you'll know it may happen to
you

I was a lost and lonely soul trying to make something happen
I worked on love but it wouldn't come my way
I was just about to quit when I saw two lovers laughing
And I remembered what I heard somebody say

Hey hey they told me love is a miracle like the sun the rain the
skies of blue
They said love is a miracle and you'll know it may happen to you

So I went on about my business and let my mind be free
The leaving love would come when the time got right
Now my prayers have all been answered and you have come to me
And all I did was talk to you that night

Hey hey tell you love is a miracle like the sun the rain the sk
ies of blue
Sayin' love is a miracle and you'll know it may happen to you

Love is a miracle like the sun the rain the skies of blue
I'm sayin' you love is a miracle and you'll know it may happen
to you

(Love is a miracle love is a miracle
Love is a miracle and you'll know it may happen to you)

Love is a miracle like the sun the rain the skies of blue...
