

Lovelight

Mel McDaniel

One lonely night after another all alone in my room
Lovers go by in love with each other me I got nothing to do
So I sit here by my window with an aching heart
Alone in the dark

Hey lovelight shine on me
Let somebody let somebody be
The one that the one that I've been dreaming of
Hey lovelight shine tonight like a moonlight through the dark night
And bring me bring me somebody to love

Lovers they come lovers they go and the world goes around
I spend my nights searchin' their faces for a face in the crowd
And somewhere there's gotta be someone
And I know she'll be searching for me

Hey lovelight shine on me
Let somebody let somebody be
The one that the one that I've been dreaming of
Hey lovelight shine tonight like a moonlight through the dark night
And bring me bring me somebody to love

Hey lovelight shine on me
Let somebody let somebody be
The one that the one that I've been dreaming of
Hey lovelight shine tonight like a moonlight through the dark night
And bring me bring me somebody to love
