

Real Good Feel Good Song

Mel McDaniel

Did ya ever wake up in the mornin' nothing was a goin' right
Spent the whole night fussin' and a fightin' with your wife?

Bills out in the mailbox you know that you can't pay
Then you try to leave for work and your cars been towed away?
What you needed was a

'Real Good Feel Good Song'
One that makes you feel alright when everything goes wrong
One that makes you move your feet and makes you sing along
You need a 'Real Good Feel Good Song'

A friend of mine was a workin' hard, savin' all his pay
Like Jesse James, the IRS stole most of it away
Then he got chased by a street gang

And he finally found a phone
He called up the police and they put him on hold
What he needed was a

'Real Good Feel Good Song'
One that makes you feel alright when everything goes wrong
One that makes you move your feet and makes you sing along
You need a 'Real Good Feel Good Song'

They say, music charms the savage beast and I believe it's true
Man's had it down thru' history when he's had the blues
He'd find a drum to beat on and a horn that he could blow

You know it worked for the children of a Israel
At the walls of Jericho
They brought the house down with a

'Real Good Feel Good Song'
One that makes you feel alright when everything goes wrong
One that makes you move your feet and makes you sing along
You need a 'Real Good Feel Good Song'
