

Under My Skin

Mel McDaniel

Sometimes I want to take her far away and make love 'til the morning light
She's got me, gotta be like a fire, burning me all night
Oh, it's a sin, that girl is under my skin

Can't go five minutes without her messing with my brain
I feel like a stack of dominoes 'cause I fall for it again
Where did it begin? That girl is under my skin

I feel it running through my bones like a wind going through the trees
When she holds me tight, won't let go, could it be love? Lord,
I don't know
But you know, can't you see, don't you know that I gotta have her kisses every second of the day
My hearts like a highway, she's driving me insane
Where does it end? That girl is under my skin (That girl is under my skin)

Gonna squeeze her, gonna tease her, and you know I wanna please her 'til the sunshine makes a new day
But you gotta understand that I feel like a blind man every time I look her way
I'll say it again, that girl is under my skin (That girl is under my skin)

I feel it running through my bones like a wind going through the trees
When she holds me tight, won't let go, could it be love? Lord,
I don't know
But you know, can't you see, don't you know that I gotta have her kisses every second of the day
My hearts like a highway, she's driving me insane
Where does it end? That girl is under my skin (That girl is under my skin)

Now don't you know, can't you see, don't you know that I gotta have her kisses every second of the day
My hearts like a highway, she's driving me insane
Where does it end? That girl is under my skin (That girl is under my skin)

(That girl is under my skin)

Lordy

(That girl is under my skin)

(That girl is under my skin)

(That girl is under my skin)

(That girl is under-)
