

When April Comes Again

MeI Tormé

If you can't remember now, if romance has lost its way,
If romance grows dim with each passing day,
If you've forgotten how we met in April rain,
Wait till April comes again.

When robins return and Spring has softened Winter's chill,
Will you then recall, will your heart stand still?
Will you remember when you walk in April rain,
And love me when April comes again?

Will you remember when you walk in April rain,
And love me when April comes again,
When April comes again?
