

# Suddenly Monday

Melanie C

**B** **C#**  
Suddenly monday appears again.

**E** **B**  
Where was the weekend? I lost it again.

**C#**  
Run to the bus stop, its never on time.

**E** **B**  
I couldnt care less cause, you make me feel fine.

**C#**  
Whenever Im down, you're always around.

**E** **B**  
Maybe this time true love I've found.

**C#**  
What would I do if I didnt have you?

**E** **B**  
The things that you say, the things that you do.

**C#** **E**  
You make me high, I wish that you knew,

**B** **C#**  
I wish I could tell you, together we'd fly.

**E** **B**  
Open your eyes, start reading my mind.

**C#**  
Same conversation every day

**E** **B**  
so much to ask you, but cant find a way.

**C#**  
Whenever you're goimg can I come along?

**E** **B**  
Whatever your star sign wherever you're from.

The end of the day

**C#**  
and you're still around

**E** **B**  
my head's in the clouds, feet on the ground

**C#**  
maybe I should, and maybe you would

**E** **B**  
maybe tonight, if only we could

**C#** **E**  
You make me high, I wish that you knew,

**B** **C#**  
I wish I could tell you, together we'd fly.

**E** **B**  
Open your eyes, start reading my mind.
