

Warrior

Melanie C

I want to feel like a warrior
With an army at my side
Caus no harm, only protect me
I want to feel like a conquer
Anything that'd dare to stand in my way
And I'm sure I could change for the better
Everything would be ok

I am a little older
I still need you to take me over

With a little help, the help you give to me
With a little faith, the faith you have in me
With a little love, give me the strength that I need

I want to feel I'm ascending
So much higher than I've ever climbed
And to not be afraid of the danger
I want to feel I am worthy
Of everything I have ever achieved
I do not want to bask in the glory
Of something that I don't believe
This life is full of fear
Let me know that you are here

With a little help, the help you give to me
With a little faith, the faith you have in me
With a little love, give me the strength that I need

With a little help, the help you give to me
With a little faith, the faith you have in me
With a little love, give me the strength that I need

With a little help, the help you give to me
With a little faith, the faith you have in me
With a little love, give me the strength that I need
