

Island Boy

Melanie Fiona

When my world feels so lonely
I know that there's a place that I
Can go to where you will show me
That everything is oh so right
No need to pack my bags cause I
Am only needing you tonight
And with you I can stay here all day and never look on yesterday

He's me island boy
He's my little getaway
Lovin him feels like I'm on vacation everyday
He's me island boy
My taste of paradise
Take me away tonight

Cause there's somethin in the way
That you say my name
That can draw me unto you
In a place so far away
Because I
Lovin everything you do
I might as well get high off you
Paradise with just us two
Island boy
So can I stay on this island with you forever, and ever, and ever

He's me island boy
He's my little getaway
Lovin him feels like I'm on vacation everyday
He's me island boy
My taste of paradise
Take me away tonight
