

Lost & Found

Melanie Martinez

All you do is complain
Bout the things you lost some years ago, babe
Step on all those memories cause they're deadweight
But absorb the message, apply the lesson
When we die we take no possessions, no

I know it's hard when you hold me like that
Falling too deep and it brings you right back, oh oh
If they were the lost one maybe I'm in the found one
You'll never catch a rainbow focusing on an old storm

In the lost and found
In the lost and found
You'd be surprised but you would find
Someone's trash is ones gold prize
Love is a risk they are combined
Why deny the rhapsody in our eyes

Pick up the pace
Eyes all off your losses and the past pain
Don't be scared of holding onto new things
I know you're jaded and love frustrated
Not everybody will treat you like they did

It must be hard to not act like that
How you gonna trust when you never learned that, oh oh
If they were the lost one maybe I'm the found one
You'll never catch a rainbow focusing on a old storm

In the lost and found
In the lost and found
You'd be surprised but you would find
Someone's trash is another ones gold prize
Love is a risk they are combined
Why deny the rhapsody in our eyes

Romanticizing short encounters is a coping mechanism
For past wounds fear infested the matter all of your body, oh oh

In the lost and found
In the lost and found
You'd be surprised but you would find
Someone's trash is another ones gold prize
Love is a risk they are combined
Why deny the rhapsody in our eyes
