

## Abuse

Melanie

I leave a little early  
From your fatal final blow  
I don't need to hear you say  
What I already know  
An easy mistake to assume I'd say  
You thought I'd look the other way  
But abuse is just a game I play in bed

A far cry from assertive  
No one knows that more than you  
But you confuse that part of me  
For being easily fooled  
Ah darling, you'll forgive me please  
Don't be surprised, no bended knee  
'Cause abuse is just a game I play in bed  
And abuse is just a game I play in bed

Across the board from box to wire  
I finish where I start  
The pretty lies you tell me  
Keep me missing the sad parts  
Ah sure I love you, yes I'll cry  
But your silly girl needs to survive  
And abuse is just a game I play in bed  
Abuse is just a game I play in bed

I leave a little early  
From your fatal final blow  
I don't need to hear you say  
What I already know  
An easy mistake to assume I'd say  
You thought I'd look the other way  
But abuse is just a game I play in bed  
Abuse is just a game I play in bed  
Abuse is just a game I play in bed
