

## And We Fall

Melanie

Promises are hard to keep  
She falls in love three times a week  
And when she falls it s always deeper  
Than the time before

Easier said and harder done  
To love one only, only one  
Sometimes head and heart succumb  
To heaven in the making

And we fall, after being warned and told  
After all, the days and nights of hot and cold  
Knowing calls for closing eyes and healing words  
I ll love you forever

Beholding to the heart in dreams  
We fall in love with love, it seems  
Believing in those movie scenes  
And the happily ever after

Well some go on and some remain  
In the winning losing loving game  
And who we hurt in love s name  
It haunts us in our dreaming

And we fall, after being warned and told  
After all, the days and nights of hot and cold  
Knowing calls for closing eyes and healing words  
I ll love you forever

Through the door and down the aisle  
Through the mind s eye the years and miles  
And tell me dear, do you still smile  
Cause this is how you ve spent your life tonight

And we fall, after being warned and told  
After all, the days and nights of hot and cold  
Knowing calls for closing eyes and healing words  
I ll love you forever
