

Clever Boy

Melanie

You worked your way into my heart
Clever boy
You worked your way into my heart
And now I can't let you go
Oh no, I can't let you go
You're a part of my reason
And a part of my world

At first I thought love was a game
Clever boy
I never knew I would let you win
And now I can't let you go
Oh no, I can't let you go
You're a part of my reason
And a part of my world

And I guess you could say
You're a reason for living
And I never gave nothing away
For the thrill of it all

And so whatever you got you earned it
And whatever you want you got it

You worked your way into my heart
Clever boy
You worked your way into my heart
And now I can't let you go
Oh no, I can't let you go
You're a part of my reason
And a part of my world

You worked your way into my heart
You worked your way into my heart
You worked your way into my

You worked your way into my heart
Clever boy
You worked your way into my heart
And now I can't let you go
Oh no, I can't let you go
You're a part of my reason
And a part of my world

And I guess you could say
You're a reason for living
And I never gave, never gave nothing away
For the thrill of it all
And so whatever you got you earned it
And whatever you want you got it

You worked your way into my, into my heart
You worked your way into my heart
You worked your way into my heart
You worked your way
