

Come Softly To Me

Melanie

I want, want you to know
I love, I love you so
Please hold, hold me so tight
All through, all through the night

I've waited, waited so long
For kisses and your love
Please come, come to me
From up above

Come softly darling, come to me stay
I love you always, always, always

Speak softly darling, hear what I say
You're my obsession, forever and a day

Speak softly darling, hear what I say
You're my obsession, forever and a day
