

# Consider It Something Good

Melanie

Consider it something good  
Consider it something wonderful  
For the first time you can feel  
All you need is what is real  
And to be clear and understood  
Consider it something good

There's something about our love  
And all I feel is wonderful  
Like everything I've heard  
You bring to mind the very word  
Ever clear, forever understood  
Consider it something good

Oh remembering how it used to be  
And now I'm wondering  
How I ever lived, how did I do it, how?

There's something about our love  
Consider it something wonderful  
Like everything I heard  
You bring to mind the very word  
Ever clear, forever understood  
Consider it something good

Not just one of those things a woman goes through  
Not one of those things a woman goes through  
Not one of those things woman goes through, oh no

Now I'm remembering how it used to be  
And now I'm wondering  
How I ever lived, how did I, how?

Consider it something good  
Consider it something wonderful  
For the first time you can see  
All you need really need is me  
To be clear and understood  
Lets consider it something good

Not just one of those things a woman goes through  
Not one of those things, oh no, oh no, oh no  
Not one of those things  
Not one of those things a woman goes through, no no no

Consider it something good
