

## Freedom Knows My Name

Melanie

Freedom pulls my heartstrings  
As I board another plane  
It's not leaving I am wanting  
But freedom knows my name

Friends turn into strangers  
Strangers can be cold  
I've been blessed with angels  
At least I'm not alone

And they come to me in a sunrise  
In the words of some old song  
In the name of all creation  
In a life long out of bounds

Freedom knows my name  
Freedom knows my name

Tender roots grow deep with longing  
To the core of solid ground  
Mine go left of center  
And slightly off the ground

Through the war torn ages  
Scenes of freedom's fight  
Drawn on hidden pages  
Haunt our dreams at night

Freedom knows my name  
Freedom knows my name

To the child without a promise  
To the frightened and the tame  
Although it's just a whisper  
Freedom knows your name
