

I'm Not In Love Anymore

Melanie

People in love
They go a long way
They do the wrong things sometimes
They let their hearts lead them astray
They give the ones they love
The benefit of the doubt
They work it out
I used to work it out
But I'm not in love anymore
Never mind it
I'm not in love anymore
People in love
They reign in sunshine
They give their hearts to burning
And then they have a laugh
I'm always amazed
At what passion can do
To any man, but not to me I'm past it
'Cause I'm not in love anymore
Never mind it
I'm not in love anymore
I'm not in love anymore
Don't talk to me about loneliness
I never minded
It's just a fleeting moment of my heart
That don't beat that way no more, no more
No no, I'm not in love anymore
Never mind it
I'm not in love anymore
I'm not in love anymore
I'm not in love anymore
I'm not in love anymore
I'm not in love anymore
People in love
They go a long way
They do the wrong things sometimes
They let their hearts lead them astray
They give the ones they love
The benefit of the doubt
They work it out
I used to work it out
I'm not in love anymore
I'm not in love anymore
