

# I Will Get Over

Melanie

There's a rock in the road  
And a ditch on the side  
And a steep hill that must be climbed  
It's a big heavy load  
And it measures too wide  
And a destination  
That's hard to find

I will get over  
I'll make it there  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over  
I'll make it there  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over

There's a stop sign ahead  
And it's slippery when wet  
And a detour at every turn  
There's a narrowing bridge  
And a long threatening ridge  
And a big-old landslide  
That bars return

I will get over  
I'll make it there  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over

There's a wreck on the right  
And it's getting on night  
And my headlights, they won't turn on  
All the brakes have been worn  
And the bumper's been torn  
And my pride and patience  
Are all but gone

I will get over  
I'll make it there  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over  
I'll make it there  
'Till I climb up that mountain  
And breathe heaven's air  
I will get over  
I'll make it there  
I will get over .....
