

I Will Walk You Home

Melanie

I will walk you home
I'll make sure you're never alone
I will stay by your side until we reach your door
Before you start wondering what your heart really felt
Before you start thinking and thinking and thinking and thinkin
g once more

I will walk you home
I will walk you home
Before you start thinking and thinking and thinking and thinkin
g once more

I will walk you home
I will walk you home
I will walk you home
I will walk you home

I will walk you home
I will walk you home
Come with me
I will walk you home
Again
I will walk you home
I will walk you home
I will walk you home
...
