

If My Heart Should Lose It's Way

Melanie

If my heart should lose it's way
Keep a light on at your window
If you and I should have to part
Your light would be my star
If my heart should lose it's way

If my heart should lose it's way
Keep a dream under your pillow
We'll meet again at break of day
That dream is where I'll go
If my heart should lose it's way

Summon the gypsy thunder
Then Hell itself freezes over
I will be back, wings and all that, yeah
Beyond my wildest blunder

If my heart should lose it's way.

If my heart should lose it's way
Blow the winds of wonder
If ever I forget to know
That breeze will bring me home
If my heart should lose it's way

Summon the gypsy thunder
Then Hell itself freezes over
I will be back, wings and all that, yeah
Beyond my wildest blunder

If my heart should lose it's way
Keep a light on at your window
If you and I should have to part
Your light would be my star
If my heart should lose it's way
