

Lonesome Eyes

Melanie

I see you waiting in the wings
I only hope to know it will bring
The expectation of my dream
To show you how I wish to be

Lonesome eyes, cold and lonely nights
Lonesome eyes, cold and lonely nights

I keep the sparkle from your smile
Deep within me all the while
It's not enough to know we might
Share some lovin', share the night

Lonesome eyes, cold and lonely nights
Lonesome eyes, cold and lonely nights

I could never leave you, so sad
I will never leave you, so bad

I'll try to keep our love alive
It only time will stay on our side
No matter what the days may bring
I'll never lose my inner feeling
Love you 'til the end of time

Lonesome eyes, cold and lonely nights
Lonesome eyes, cold and lonely nights

Lonesome eyes, cold and lonely nights
Lonesome eyes, cold and lonely nights
