

# Never Had A Clue

Melanie

I need more air to breathe  
If what you're telling me  
Is goodbye  
No reason, rhyme or why  
You thought I knew  
I never had a clue

From where you watched it all  
You've seen the pieces fall  
You thought all along  
I knew what was goin' on  
But I'm telling you the truth  
I never had a clue

We were so out of touch  
We let love slip away  
We had so many things  
That we didn't say  
There was nobody right  
There was nobody wrong  
Just dancing different beats  
To the same old song  
Of me and you  
I never had a clue

And now we're face-to-face  
As things fall into place  
So make your move  
And do what's right for you  
But I'm telling you the truth  
I never had a clue

We were so out of touch  
We let love slip away  
We had so many things  
That we didn't say  
There was nobody right  
There was nobody wrong  
Just dancing different beats  
To the same old song  
Of me and you  
I never had a clue

I never had a clue  
I never had a clue
