People Are Just Getting Ready

Melanie

People are just getting ready
When it's already time to go
Filling their lives without meaning
For the meaning scares us so

Sometimes we're slow to realize
That harmony is paradise
And here and now is where it lies

People are just getting ready
When it's already time to go

Some of us craze with the knowing
That we truly are alone
Filling our nights with dark passion
And our days with a burning glow

Sometimes we're slow to realize
Harmony is paradise
And here and now is where it lies

People are just getting ready

People are just getting ready
When it's already time to go
Filling their lives without meaning
For the meaning scares us so
