

## Perceive It

Melanie

Stop the car if I have come this far  
Without learning how to make an unexpected turn  
Learn to play the changes to the beat of time  
Satisfaction never was a friend of mine

Perceive it and say goodbye to it  
Don't hold on to any one moment  
You've got to love it and then release it  
Don't hold on to any one moment

Send a postcard if you go to France  
Let me know if you're alive and doing fine  
I have never loved by mail  
So here's my chance  
I would like to write it if I ever get the time

Perceive it and say goodbye to it  
Don't hold on to any one moment  
You've got to love it and then release it  
Don't hold on to any one moment

Draw your boundaries and paint your signs  
Though they say "alone"  
At least I have a word to pray  
And I follow needing all there is of time  
Solo dancers learn their steps along the way

Perceive it and say goodbye to it  
Don't hold on to any one moment  
You've got to love it and then release it  
Don't hold on to any one moment

Oh oh oh...  
Don't hold on to any one moment
