

Remember Me Good

Melanie

Well we've come such a long time past parting
I'm still caring much more than I should
Well as long as I'm to be remembered
I hope you remember me good
And I hope you remember us in a good light
I hope you remember a little clearing in the wood
I don't know why I should
I used to come up to see you by railroad
But these days I travel by plane
And though it's a fast kind of roaming
My direction is really the same
And I'm singing for a living in the bright lights
I missing the seasons in the clearing in the wood
The autumn felt so good
I miss your seasons, I guess I always knew I would
It makes me wonder
Well we've come such a long time past parting
I'm still caring much more than I should
Well as long as I'm to be remembered
I hope you remember
I don't know why I should
I hope you remember me good
