

# Shine On (The Sun Will Shine On You And Me)

Melanie

If I should flow through the rivers of darkness  
If I should drown in the deep salt sea  
I'd like to cling to the notions I harbour  
Until the sun shines down on me

And when our names have been forgotten  
And our faces all washed clean  
If we hold onto one another  
The sun will shine on you and me

The sun will shine on you me, I know  
And the truth shall set us free, oh yeah  
When our names have been forgotten  
And our faces all washed clean

Aww, the sun will shine (shine on me)  
The sun will shine on you and me (shine on me)  
The sun will shine (shine on me)  
The sun shine on you and me (shine on me)

When all mankind stands up united  
On that day we shall be free  
When we can trust in one another  
The sun is gonna shine on you and me  
The sun is gonna shine on you and me

The sun will shine on you me, I know  
And the truth shall set us free, oh yeah  
When our names have been forgotten  
And our faces all washed clean

Oh, the sun will shine (shine on me)  
The sun will shine on you and me (shine on me)  
Yeah, shine, shine  
The sun will shine (shine on me)  
The sun will shine, yeah, yeah...
