

Standing On The Other Side (Of Your Love)

Melanie

Well you ask me and I have to laugh
It's like asking a singer for an autograph
It's a sign that the songs not enough
And we need a little more of what we're made of

Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love

We you ask me for my point of view
And I don't think you remember who you're taking to
It's a sign that we've grown out of touch
And we need a little more, much more

Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love

I roll up, first come first server
First put you're nose to line
Big spender, heart bender
I ain't got time to be nice

Standing on the other side (other side)
Standing on the other side (on the other side)
Standing on the other side (on the other side)

Standing on the other side of your love
Standing on the other side (of your love)
Standing on the other side (of your love)

You ask me and I have to laugh
It's like asking a singer for an autograph
It's a sign that the songs not enough
And we need a little more, much more

Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love
Standing on the other side (on the other side) of your love
