

## Summer Of Love

Melanie

Step inside the shoes I walk in  
Walk them down onto a pasture  
Where the green may have been yellow  
But the music will remember

In the summer of love  
In the summer of love  
In the summer of love

Where we raged and reached for freedom  
When we kissed and loved a stranger  
And we asked our silly questions  
And would not settle for the reasons  
Did we rise up to the cause  
Or did we cause the thing to happen?  
When humanity awakens  
Ah but the music will remember

In the summer of love  
In the summer of love  
In the summer of love

There's a power on a hillside  
There was magic in the moment  
It's a farm land that lies fallow  
But the dream grows on forever  
Cynics laugh and make it less than  
The extraordinary wonder  
When humanity awakens  
Ah but the music will remember

In the summer of love  
In the summer of love  
In the summer of love

When humanity awakens  
Then the music will remember
