Let Me Explode

Melina KB

Warning warning, I've reached capacity
I'm bubbling over, flowing rapidly
Boarded boarded up, keep 100 feet
I'm struggling, huddling before the breach

Finale night, the drama's alright
I've been ticking, time expires

Let me explode, baby let me explode
Big red button on my left and I wanna know
From the get-go we said we would go slow
But I'm pressing next after next play next episode

Oh... And you keep teasing me

Warning warning, I've waited here for weeks
And everyday you keep me just out of reach
Pouring your pouring flirtations over me
I can't stop the river once you let me speak

Finale night, I'm tryna survive
I've been ticking, time expires

Let me explode, baby let me explode
Big red button on my left and I wanna know
From the get-go we said we would go slow
But I'm pressing next after next play next episode

Oh... And you keep teasing

Lips just inches away
I'm holding my tongue, I've got so much to say
Hypnotized by your face
The second I lean in, the second you escape

Let me explode, baby let me explode
Big red button on my left and I wanna know
From the get-go we said we would go slow
But I'm pressing next after next play next episode

Oh... And you keep teasing me
