

# Meet Me in the Back

Melissa Etheridge

Meet me in the back  
Don't make me wait too long  
I could change my mind  
And tell you that it's wrong  
So meet me in the back  
Where the light don't shine  
First show me yours  
Maybe I'll show you mine

My hands are shaking  
My heart is beating fast  
Is love worth making  
When it can never last

Meet me in the back  
Don't make me wait too long  
I could change my mind  
And tell you that it's wrong  
So meet me in the back  
Where the light don't shine  
First show me yours  
Maybe I'll show you mine

I'm gonna give directions  
I'm gonna take it slow  
But if I don't get protection  
I will just say no

Meet me in the back  
Don't make me wait too long  
I could change my mind  
And tell you that it's wrong  
So meet me in the back  
Where the light don't shine  
First show me yours  
Maybe I'll show you mine

I can hear the music  
Pounding through the walls  
And to the beat of dancing  
I will give you all

Meet me in the back  
Don't make me wait too long  
I could change my mind  
And tell you that it's wrong  
So meet me in the back  
Where the light don't shine  
First show me yours  
Maybe I'll show you mine
