

Save Myself

Melissa Etheridge

Come on down to the corner
Introduce ya to some of my friends
Come on across the border
See where the night begins
Can you feel it some kind of danger
Spreading out over the street?
Hard as I try, deep down inside
I cannot make the two ends meet

Sister, how did you get here?
Me and nobody else
Sister, whatcha gonna do?
I'm gonna save myself

I ain't waiting on a savior
I ain't waiting on no prince
Some little girl wanted to take on the world
I haven't looked back since

Can you feel it, some kind of power
Spreading out over the skin? Come on
Just close your eyes, you're taking a ride
And you'll never be the same again

Sister, how did you get here?
Me and nobody else
Sister, whatcha gonna do?
I'm gonna save myself

Oh, sister, how did you get here?
Me and nobody else
Sister, whatcha gonna do?
I'm gonna save myself, yes
I'm gonna save myself, oh yeah
I'm gonna save myself

Oh, oh
I'm gonna save myself, yeah, yeah
I'm gonna save myself
